CAREER OBJECTIVE

Final-year B.Tech student in Artificial Intelligence and Data Science with strong foundations in Python, machine learning, databases, web development and problem solving. Passionate about building AI-driven solutions and seeking opportunities to contribute as an AI and software engineering professional.

EDUCATION

- B.Tech AI & DS, Indra Ganesan College of Engineering (2023–2027) | CGPA: 8.56
- HSC, Government Boys Higher Secondary School (2021–2023) | 83%
- SSLC, Sri Lalitha High School (2019–2021) | All Pass

TECHNICAL SKILLS

Languages: Python

Frameworks: Django, React, Vite

Database: MySQL

Tools: MS Office

Domains: Machine Learning, Computer Vision, Full Stack Development, Robotics & Embedded AI, IoT

PROJECTS

- Autonomous University Robotic Assistant – Python, Raspberry Pi, AI Vision, Voice Assistant, IMU, Camera. Built an AI-powered campus surveillance robot with autonomous navigation, obstacle detection and real-time monitoring.
- College Management System – Django, React, Vite, SQLite, Axios. Developed a role-based web application for student, faculty, course and attendance management.

INTERNSHIPS

- Appin Technology (Dec 2025 – Jan 2026): Full Stack Python.
- VDart Academy (Jul 2026): Django, React, Vite, APIs, AI Integration.

CERTIFICATIONS

- Data Science – Great Learning
- Figma Bootcamp – LetsUpgrade
- Full Stack – NoviTech
- JavaScript Workshop – EK Academy

ACHIEVEMENTS

- 2nd Place – Project Expo
- Hackathon Participant – Erode Sengunthar Engineering College
- Symposium Participant – Kalasalingam University & K. Ramakrishnan College of Technology
- Office Bearer – Department Association

PERSONAL DETAILS

Date of Birth: 01 Oct 2005 | Languages: English, Tamil, Telugu
